The Claims

- 
1. A portable system for teleconferencing presentations by a presenter,  
comprising in combination:
- 5 a cart forming a podium;  
a computer located in or on the cart;  
a touch panel interface with the computer, positioned on the cart, visible to  
the presenter; and  
a CODEC operationally attached to the computer, wherein the computer, the  
10 touch panel and the CODEC can be used without removing them from  
the cart.
2. A portable system according to Claim 1, further comprising a first camera for  
taking a video image of the presenter.
- 15 3. A portable system according to Claim 2 wherein the first camera is mounted  
on the cart, wherein the first camera can be used without removing it from the  
cart.
- 20 4. A portable system according to Claim 2, further comprising a second camera,  
located on or in the cart, for taking images of documents, wherein the second  
camera can be used without removing it from the cart.
- 25 5. A portable system according to Claim 4, further comprising a projector  
associated with and movable with the cart and a screen, wherein the projector  
projects images from the first or second camera to the screen, wherein the  
projector can be used without disassociating it from the cart.
